How to Change Default Printer in Intellidealer

Josh Hines - 2018-09-19 - Intellidealer

Difficulty: Easy

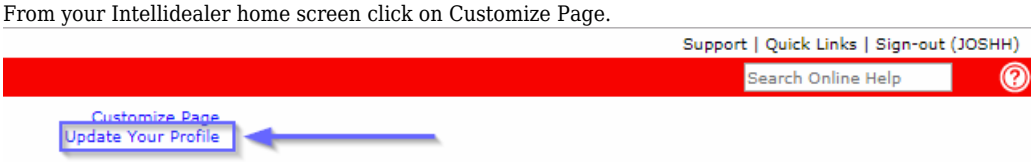

Time: <1 Minute

Applies to: Intellidealer Printer Settings

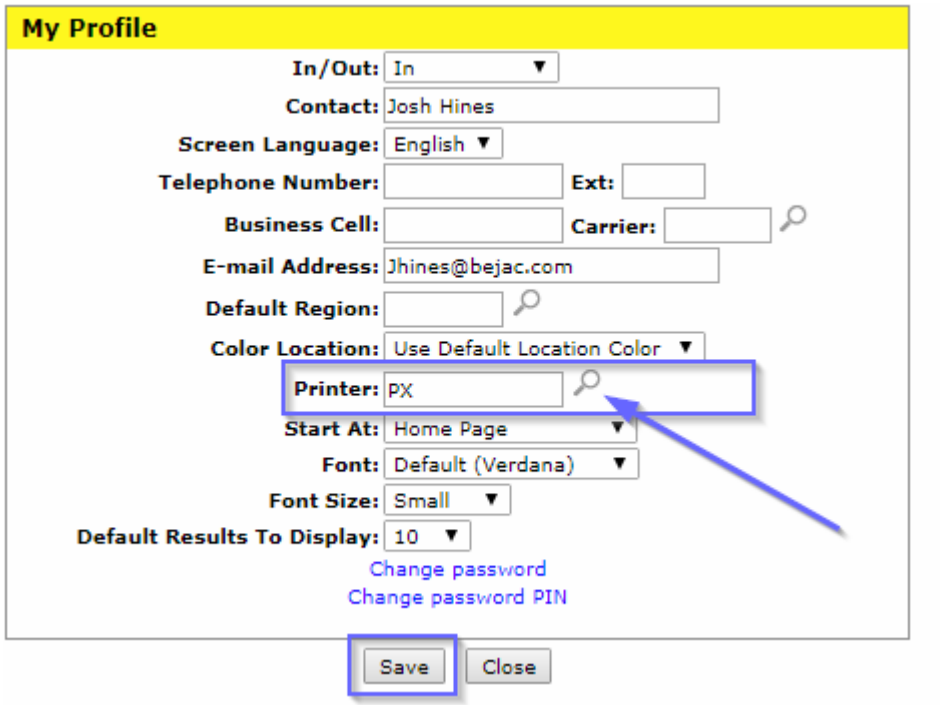

This article will show you how to update your default printer in Intellidealer. If you encounter any problems, please open a ticket by emailing helpdesk@bejac.com.

[How to Change your Default Printer in Intellidealer]

1. From your Intellidealer home screen click on Customize Page.

2. Find the Printer option and click the search icon to the right. You can now select from a list of printers. After making your selection hit Save. You have now updated your default Intellidealer printer.
